

Mobile Sand Filling Systems

SANDfloh®

Typ 500-4

Dimensions (l x w x h):
approx. 3400 x 1000 x 2000 mm
Outer turning radius: 4000 mm
Sand content: approx. 500 l
Filling capacity: up to 25 l/min

kleinSand.sherpa

Technical Data and Specific Features:

- portable as backpack, by hand or on a cart
- ease of operation by hand lever
- suitable to be used when space is limited
- low-speed sand transport through transparent filling hose
- compressed-air connection to rail vehicle or central supply via connecting hose by means of rapid action coupling
- UV-resistant, ergonomically shaped plastic tank
- supporting frame to ease sand filling and parking
- compressed-air installation with pressure regulator and safety valve

Empty weight: 8 kg
Filling opening: dia. 105 mm
Sand content: max. 12 l
Filling capacity: approx. 10 l/min
