

BURAN®

Brake Sand Scattering System

BURAN® classic

- Brake sand scattering system officially certified (certificate 083-2012-11) and declared suitable to be operated by Deutsche Bahn AG
- Suitable for conventional on-board compressed air installations (3,5 – 10 bar)
- **NEW:** Economized compressed air consumption owing to improved pneumatic system (patent pending)

BURAN® pro

- New brake sand scattering system with speed-dependant control of the spreading quantity
- Suitable for conventional on-board compressed air installations (3,5 – 10 bar)

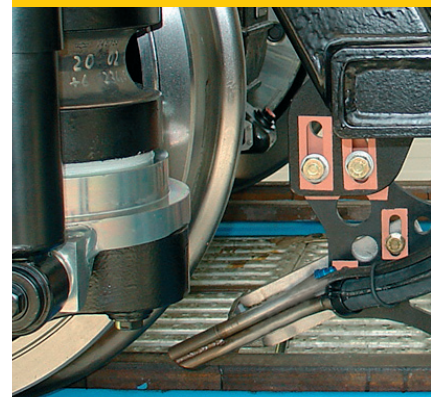

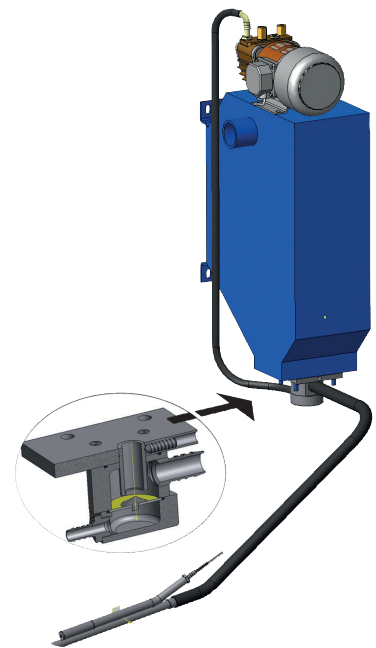

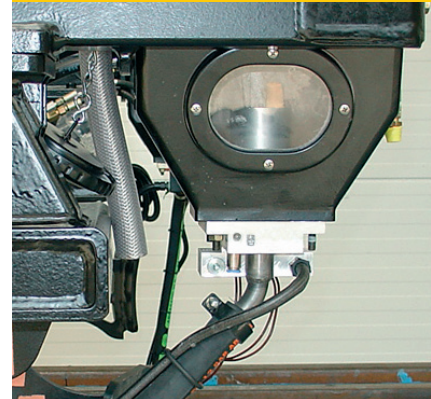

BURAN® ventino

- Innovative brake sand scattering system based on low-pressure fluidization (patent pending)
- Available as complete system including low-pressure compressor and sand box

All BURAN® brake sand scatterings systems can be complemented with innovative additional functions on request.
